

KIDZ TIME 1

Craft: Child glues brown pipe cleaners or construction paper (for wood) in the space below to make a campfire. Use yellow pipe cleaners or construction paper to make a fire. **Activity/Game:** Gather small twigs or use stems of old silk flower arrangements to make a "campfire." Place a votive in the center for the fire. Sit on the floor around the "campfire." Talk about how the flame goes out when dirt is put on it. (If you're using an old votive candle, you can demonstrate with sand or soil.)

Teaching: God wants the flame of His life and Spirit to be a light in our hearts. When we sin, it is like putting dirt on the flame.

Quench not the Spirit. 1 Thessalonians 5:19
